Education

Kookmin University, Seoul, Korea

2021.03 ~ 2025.02

- B.S., Mechanical Engineering
- GPA 4.13/4.5

Research Interests

Wearable Robot

Rehabilitation Robot

Control Theory

Experience

Intern Dynamics and Biomechanics Lab in GIST

2025.01.06 ~

- LSTM-Based Real-Time Classification of Locomotion States Using IMU Data

Intern BIOROBOTICS LAB in Seoul National University

2024.07.22 ~ 08.30

- Development and Patterning of a Portable Shoulder CPM Robot Using Pneumatic Soft Actuators

2024 KMU Engineering FESTA, Engineering Design Contest

2024.06.04

2024 Robocup Korea Open, Humanoid Soccer League

2024.02.16 ~ 02.18

2023 SRCIRC Humanoid Robot Sport Intelligence Division

2023.10.12

KUDOS (Humanoid Soccer Robot Club)

2022.05 ~ 2024.02

Conferences

2025 ICROS, Poster, LSTM-Based Real-Time Classification of Locomotion States Using Inertial Measurement Unit (IMU) Data.

Awards & Honors

2024 KMU Engineering FESTA, Engineering Design Contest (2nd place)

2024 Robocup Korea Open, Humanoid Soccer League (1st place)

2021 Academic Scholarship

Skills

Language: New TEPS 329, TOEIC 775

Programming: C, C++, MATLAB, ROS, Python

Engineering Tools: SOLIDWORKS, AUTO CAD
